The State of Women in America

We canât bounce back from the COVID-19 recession without interventions to support them in both roles.

Meet the Least Happy People in America

But a substantial number of women support themselves and their families by working in low-wage jobs. Women—especially women of color—are more likely to have been laid off or furloughed during the COVID-19 crisis, 1. To achieve equality, companies must turn good intentions into concrete action.

Women are better off today, but still far from being equal with men

If you would like information about this content we will be happy to work with you.

Women are better off today, but still far from being equal with men

Meanwhile, Black women already faced more barriers to advancement than most other employees. Now, Black women are facing even more challenges Black women are being disproportionately affected by the difficult events of 2020. The culture of work is equally important.
