## Top ten offshore oil and gas fields in Europe: Ranking the top ten

Simon Waldram, in , 2010 1 World Natural Gas NG Reserves The largest proven NG reserves are in Russia but reliability of pipeline deliveries has recently been poor.

## Top 10 Natural Gas Producing Countries in the World

On the other hand, it is important to single out that the world's oil shale resources are estimated to contain around 6.

## Power of connection: why the Russia

Saudi Arabia is in a pre-eminent position as her proved oil reserves are estimated to be about 168. Despite its low reserves, four companies participate in its exploitation; these are Nobel Energy 36 per cent , Delek Group 31. It is also predicted that by 2025 the aggregate volume of liquid hydrocarbon and biofuel production in the US and Canada will reach 19 million barrels per day, thus significantly reducing the region's dependency on oil imports.

## Power of connection: why the Russia

EU + Norway natural gas supplies peaked in 2004 and EUs natural gas consumption has declined about 100 Gcm about 20% from its likely peak. This is also clearly manifested in the competition between Russia and USA to expand their influence over this inflammable region that is rife with disputes and conflicting interests among its parties.

## • World natural gas production in cubic meters by country 2019

Total annual production in million cubic meters — 635,500 1. In June 2016, the Netherlands' National Mines Inspectorate advised the Dutch

Government to reduce production even further to 24 bcm per year.

### **World Shale Gas Resources**

Rhourde Nouss, Alrar and Hamra are among the other largest mature gas fields in the country. NOTE: For reasons of scaling Johan Sverdrup which is sanctioned, is by NPD estimated to contain about 11 Gcm natural gas and Johan Castberg in the Barents Sea and above 72 degrees North both Category 4F are not shown.

### **Market Report Series: Gas 2019**

For these countries, shale gas development could significantly alter their future gas balance, which may motivate development. Workers building a pipeline in Germany, one of the biggest consumers of Russian gas. The initial outcomes of the feasibility study resulted in three main things: the project is technically applicable, economically fruitful and commercially competitive , p.
