They chose to spend their time creating math puzzles.

The chicken from Minsk (edition)

The most important thing would be to support vaccination with other measures that curb transmission, such as bed nets for malaria.

The Chicken From Minsk: Extra Circumference from Additional Diameter

But when vaccinated birds were infected with the highly virulent strain, they lived longer and all the healthy birds housed with them became infected and died.

The Chicken From Minsk: Extra Circumference from Additional Diameter

The copy which I got doesn't appear to be used - rather old stock that had been left in the warehouse for a long while.

Ironically, increased virulence would make it even more important to vaccinate everyone, he says, because universal vaccination would prevent the more dangerous strains from harming anyone. The attached pdf has a graphic that shows the circumference of the Earth at approximately 25,000 miles after we look at the diameter of the Earth at approximately 8,000 miles.
