### koala

Most Koalas will eat and sleep in the same tree.

### Koala Facts: Habitat, Behavior, Diet

Koalas do not drink often, they get most of their from the Eucalyptus leaves. Koalas are most often found in the southern and eastern areas of the continent. Conservation Status Koalas are designated as vulnerable by the International Union for Conservation of Nature IUCN.

### koala

Finger print experts have had difficulty in being able to tell if the prints are from a human or koala. Our Koala Forest is a large, shaded semi-outdoor exhibit, that comes with the added luxury of outdoor air-conditioning, to help keep our little ladies cool during the heat of summer. The Double Decker: Picture this - two koalas holding on to a vertical branch.

### Interesting Facts

This would be vital in the early stages of development, when the koala young lack a functional immune system.

### Barby Koala

Koalas do move around in their chosen tree. The joey is blind at birth and doesn't have any hair.

### Changing Stations

Koalas can be found in Eastern Australia — through much of Queensland from the Atherton Tablelands west of Cairns moving south , NSW, Victoria and a small section of South Australia.
