Geology, Ore Deposits, and History of the Big Cottonwood Mining District ...

The uranium was precipitated by plant debris and that acted as reducing agents.

Geochemical Studies in the Park City District; I, Ore Fluids in the Mayflower Mine

Boutwell 1874-1968 was a geologist mainly in Utah, Arizona, Mexico, and Peru. All stock certificates, checks, warrants, and other financial documents sold herein are sold as antiques, and have no financial, securities, or public trading value whatsoever. Turner-Peterson, American Association of Petroleum Geologists, Tulsa, 1986.

Geology & Ore Deposits of the American Cordillera Symposium Proceedings

Located on the lower level of the Park City Museum, the Hal Compton Research Library offers you a unique opportunity to search and discover. The Westwater Canyon Member is the main source of uranium ore in the Morrison, especially in the San Juan Basin. Petrographic study of selected samples showed no detectable mineralogical halos, but chemical halos of Ag, Cu, Mn, Pb, and Zn were found, and they enlarge the target for lode deposit exploration by a factor of more than ten.

Park City Historical Society

Within seven hours, three-quarters of the city had burned, inflicting over one million dollars in injuries and damage. Tulsa: The American Association of Petroleum Geologists. Geology and Ore Deposits of the Park City District, Utah, report, 1912; Washington D.
