

Modern developments in numerical simulation of flow and heat transfer - presented at the 28th National Heat Transfer Conference and Exhibition, San Diego, California, August 9-12, 1992

American Society of Mechanical Engineers - Portonovo S

Description: -

-
Heat -- Transmission -- Mathematical models -- Congresses.
Fluid mechanics -- Mathematical models -- Congresses. Modern
developments in numerical simulation of flow and heat transfer -
presented at the 28th National Heat Transfer Conference and
Exhibition, San Diego, California, August 9-12, 1992

-
vol. 194.

HTD (Series) ;

vol. 194

HTD ;Modern developments in numerical simulation of flow and heat
transfer - presented at the 28th National Heat Transfer Conference
and Exhibition, San Diego, California, August 9-12, 1992

Notes: Includes bibliographical references and index.

This edition was published in 1992

Conferences

Soize, organizers , San Francisco, CA, July 22-26, 2007. Romano Toschi was a leading figure in the development the Italian magnetic confinement fusion program and played an important role in bringing the EU at the forefront of fusion research.

Mohammad Naraghi

Microstructural changes in granitic rocks due to consolidation treatments: Their effects on moisture transport. Borehole radar applied to the characterization of hydraulically conductive fracture zones in crystalline rock. Over the two-day remote meeting on 7 - 8 April 2021, experts from the ITER Organization will be presenting information about upcoming contracts and procurement needs including the ITER Hot Cell Complex, the Tritium Plant, and maintenance services, among others.

FLAIR

Also presented at the Fifth IEEE Semitherm Symposium, pp. Crocco-Lee Theory Extension to Flow Behavior Prediction for Two Dimensional Supersonic Turbulent Near Wake Behind Bluff Body During Recompression.

Conference Papers

The method of multiple working hypotheses.

Portonovo S

The School locations alternate between France and one of the seven ITER Members. Kerr Environmental Research Laboratory, Office of Research and Development, U.

SimCenter Publications

Derivation of fracture spatial pattern parameters from borehole data.

References

Journal of Fluid Mechanics 496, 129-138. ASME New York, NY, 1991. The relationship of the degree of interconnection to permeability in fracture networks.

FLAIR

Lessons learned from bedrock blast fracturing and bioremediation at a superfund landfill. Two-phase flow in smooth and rough fractures: Measurement and correlation by porous-medium and pipe flow models. Transactions—Geothermal Resources Council 34 2 :1009—1019.
