Biden vows to pay farmers to plant cover crops and put land in conservation

We are still as dependent on the land for our daily sustenance and survival as when all people were hunters and gatherers. .

Wes Jackson

¹ A hundred years later, at the turn of the twenty-first century, less than 2 percent of Americans called themselves farmers and only around 25 percent lived outside major metropolitan areas. .

Soil and survival (1986 edition)

Sustainable Management of Food is a systematic approach that seeks to reduce wasted food and its associated impacts over the entire life cycle, starting with the use of natural resources, manufacturing, sales, and consumption and ending with decisions on recovery or final disposal. From origin stories to family histories, each resilient seed we grow at the farm has an ancestral story to tell. .

The future of rural populism

A former USDA undersecretary, Robert Bonnie, now the head of the Biden-Harris review team for USDA, was a lead author of the chapter on the USDA. .

Soil and survival ;; land stewardship and the future of American agriculture by Paddock, Joe; Paddock, Nancy; Bly, Carol: Near Fine(

Climate change is among for Biden during the transition, along with the pandemic, economic recovery and racial equity. Branching Out Food is a community endeavor.
