In Sydney, Australia, he completed a two-year subspecialty fellowship training program in advanced gynaecological surgery and ultrasound under the primary supervision of Professor George Condous. He was awarded with in 1896, and two years later.

Dr. Mathew Leonardi

For example, the benefit of removing a cancerous tumor is preventing further spread of the disease. Each chapter follows a consistent plan, guiding the reader through each procedure from anatomy and indications to post-op considerations and complications. Laparoscopic techniques complement traditional open approaches.
