Primates have always been this species as humans have always been the same species.

ACLS American Council of Learned Societies

Harvard has certainly lost its shine, and is truly nothing special anymore. I expect the ultra extremism as presented in this article is the basic reason for this.

How Science and Genetics are Reshaping the Race Debate of the 21st Century

There is also ZERO biological evidence of more than one human race, though there are inherited traits based on ancestry.

The relationship between students' subject preferences and their information behaviour

I judge people on their belief systems and what they DO...not on their color, or their race. Repentance becomes somewhat paradoxical in a Buddhist context because of the difficulty of determining what actions one has committed in previous lives.

How Science and Genetics are Reshaping the Race Debate of the 21st Century

In the methodology outlined below, two hypotheses are postulated: H2.

Ahmed, Ibrahim M

What does love and acceptance have to do with the fact that we are different? Like their religious counterparts, they also deny evolution on theological grounds.

ACLS American Council of Learned Societies

It simply means everybody outside of Africa had to adapt more to their environment but genetically, you are exactly the same.
