Mufti Yusuf Ludhyanwi Shahid & silsilah of Mawlana Allah Yar Khan

In Makkah, we can estimate roughly from the sources that there were around ten people in the whole city of at least a thousand who knew how to read and write. Because you protected me in this world, also protect me in the next. And the Lord caused the old man to find favor, grace and mercy in the eyes of the captain, and the old man was brought forth from his hiding place with all his books in great honors, and he traveled with Sidror from city to city and from country to country, until they reached the provinces of Shebilah.

Shulchan Arukh, Even HaEzer 9

And of the knowledge, he mentions the most rare type of knowledge, and that is the knowledge of the interpretation of the dreams. The wall was accordingly torn down as also the entire building, whereupon Sidror discovered a secret passage, which he followed up and reached an underground chamber filled with a great many books, to-wit: Books of the Law, the Prophets and the Hagiography, as also histories of the kings of Israel and of the kings of other nations, and numerous other books concerning the people of Israel, with the authorized and accepted books of the Mishnah.

Shulchan Arukh, Even HaEzer 9

He is ever protective, ever careful, ever loving towards you.

Masah 'al ha

ובאיזה פרק נולדו ובאי זה זמן מתו.

Shaykh of the Hajaawirah Yahya Al

After all of these blessings that he mentioned, there is a blessing that is more precious to Yūsuf than the kingdom and knowledge, and that is Islam. And they erected for themselves a magnificent and lofty structure outside of Shebilia and therein all the books were placed in order, and that house is in Shebilia even unto this, day.

Shaykh of the Hajaawirah Yahya Al

The meaning of wali in the nikāḥ and for the orphan is that his interests are the interests of the other party.
