Covering all sections of the exam, the discussion highlights essential topics like intrusion detection, DDoS attacks, buffer overflows, and malware creation in detail, and puts the concepts into the context of real-world scenarios. This was the book of my dreams, the Titanic of the advocacy world even though it is modestly sized. There are 44 chapters, each chapter being written by an expert in his or her field.

The Committee finds it unacceptable that the World Service will not know its budget, priorities or objectives before the transition to licence fee funding and the new arrangements for oversight by the BBC Trust from April 2014. Covering all sections of the exam, the discussion highlights essential topics like intrusion detection, DDoS attacks, buffer overflows, and malware creation in detail, and puts the concepts into the context of real-world scenarios. Drawing on a just-completed survey of global Internet filtering undertaken by the OpenNet Initiative a collaboration of the Berkman Center for Internet and Society at Harvard Law School, the Citizen Lab at the University of Toronto, the Oxford Internet Institute at

Oxford University, and the University of Cambridge and relying on work by regional experts and an extensive network of researchers, *Access Denied* examines the political, legal, social, and cultural contexts of Internet filtering in these states from a variety of perspectives.
