The Shipyards Wages in the flax mills were lower than in any other factory-based textile industry in the United Kingdom and, though linen remained the biggest employer of labour right into the 1950s, Belfast could not have become the centre of the most prosperous corner of Ireland without its success in shipbuilding and engineering. Rank is purely a level of achievement that one has gained through hard work or could be something that was bestowed upon one not by what they knew but by who they knew. We learned later that with this irrational act, he was attempting to punish an alcoholic mother who was living with him and who had embarrassed him severely in front of his friends on numerous occasions.
