UTAH

The pig iron that is produced at Ironton is shipped to plants in Pittsburg and Torrance, California.

Iron deposits of Utah,

His sons joined the successful business as it grew, and after World War I he saw a need to process scarp iron and steel into marketable products and in September 1921 organized Utah Steel company as a further development of the iron and steel business in Utah. Salt Lake Tribune, January 11, 1920; Iron County Record, January 16, 1920; Deseret News, June 25, 1920 Commercial production began in the 1920s with the opening of the Desert Mound pit for Columbia Steel Company, which also initiated a railroad by the name of Iron County Railway to move iron ore from its Iron County iron mines to its new iron mill at Ironton, near Springville.

East Ore Body Occurrence, Section 9 Orebody, Iron Springs Mining District, Iron Co., Utah, USA

Utah Corporation Index 4292 1874 Although the Utah iron mines were producing iron ore for local use, transportation of the iron ore from the south to the northern cities was a factor in it not being used.
