

# Field and service robotics - results of the 6th International Conference

Springer - SCOPUS

Description: -

-  
Robots, Industrial -- Congresses  
Robotics -- Congresses  
Field and service robotics - results of the 6th International Conference  
-  
Springer tracts in advanced robotics -- v. 42  
Field and service robotics - results of the 6th International Conference  
Notes: Includes bibliographical references and index.  
This edition was published in 2008

Filesize: 11.69 MB

## 7th ICRAI 2021: Guangzhou, China

However, on March 11, 2011, a magnitude M9. The aim of this symposium is to provide a platform for young researchers to share up-to-date scientific achievements in this field. Reviewer: We sincerely welcome professors, associate professors, teachers and other experts in the areas of Automation, Control and Robotics Engineering join the conference as a reviewer.

## 2018 6th RSI International Conference on Robotics and Mechatronics IcRoM

The topics of paper should be relevant to conference topics; 4. While ICRAI 2021 conference prefer to have an in-person conference to the maximum extent possible, online presentation will be acceptable this year, besides the regular onsite presentation format oral presentation.

## The 6th International Conference for Robotics Intelligence and Applications 2018 RiTA 2018

Social events include a welcome reception, banquet and an optional excursion. ICCRE 2021 has been listed on the IEEE conference list! This book comprises select proceedings of the 12th Conference on Field and Service Robotics FSR 2019 focusing on cutting-edge research carried out in different applications of robotics, including agriculture, search and rescue, aerial marine, industrial, and space. And bring your experience: you will find a keen and willing audience to hear of your learning.

## 6th International Conference on Artificial Intelligence and Applications (AI 2020)

With the advance of various technologies such as sensing, planning, perception, control, machine intelligence and cloud computing, future robots will be more skillful in handling all kinds of tasks in industry and society. We present the latest research findings across a wide range of fields, but also and importantly we showcase experience, the valuable lessons learned from innovative collaborative programs, in the U. Vision, Recognition and Reconstruction 32.

## Field and Service Robotics: Results of the 12th International Conference

Email: Conference Proceedings Submitted papers will be reviewed by 2-3 peer reviewers.
