Difference between participatory democracy and representative democracy

They are also equally concerned with the reasonableness of the laws and policies that they must obey. It is estimated that there are around 200 local referendums held in Germany each year. Even political revolutions built on the ideas of liberty produced checkered results when it came to full enfranchising its citizenry.

Associations and Democracy: Between Theories, Hopes, and Realities on JSTOR

There is developing world-wide a revolution against the elite by an underclass of the poor and socially marginalized.... We defer to advocacy groups to represent causes in which we believe, and we defer to competent professionals—airline pilots, physicians, retirement fund managers, and so on. A problem-based approach to democratic theory.

Associative movement: Achieving participatory democracy for development

Because there are so many possibilities, it is important in a democracy that individuals be able to prioritise their attention, so they can focus on the issues that are most important to them, and where their monitoring might help to align their values or interests with those who decide and act on their behalf.

Is Participatory Democracy Smart?

Political Theory, 37 3 , 323—350. We will need to recognise that in complex mass democracies, no person can participate in but a few of those forces that affect their lives, however ideal they might be.

Democracy, Representative and Participatory

Yet by theorising the spaces and scope for participation primarily in terms of the politics of rights, Lafont narrows the domain of participation in such a way that much of what counts as everyday politics falls aside. There will never be true democracy anywhere until the political playing field is

leveled to include the disenfranchised, the poor, and the stripping of legal but immoral use of too much money to represent the relatively few who control and manipulate the political system.

Is Participatory Democracy Smart?

Participation, Federalism and Pluralism: Challenges to Decision-making and Responses by Constitutionalism Francesco Palermo; Chapter III. Karl-Peter Sommermann, 1956 Professor of Public Law, Political Theory and Comparative Law at the German University of Administrative Sciences Speyer. Following deliberative democratic theory, she places a heavy emphasis on mutual justification among citizens, and between citizens and governments, particularly those decisions that are binding.
