### GitHub

By renting with Fluid Truck, your company can become as agile and scalable as it needs to be to meet growing demand, without the fixed asset liability. Contributing Contributions are highly welcomed and greatly appreciated.

### Fluid Truck

It may be updated from time to time.

### Fluid

Intelligently leveraging data often creates core industry values.

### GitHub

Fluid project was by CNCF Technical Oversight Committee TOC with a majority vote after the review process. Efficiency No forms to fill out, no keys to keep track of — simply create an account, rent a nearby truck or van, and unlock and drive off in your vehicle from the Fluid Truck app in minutes.

### Fluid

. We hope to start with data acceleration to support the management of datasets.

### Fluid

We set out to build an amazing truck rental platform for everyone, including businesses of all shapes and sizes. The Runtime defines a set of interfaces to manage DataSets in their life cycle, so the management and acceleration of datasets can be implemented behind these interfaces.
