## 3 The Impact of Vision Loss

Journal of Glaucoma 24 7 :508—514. Distress related to vision loss is more strongly correlated with depression than other key risk factors such as negative life events or poor health status. Berkeley provided an alternative to the geometry of the 'opticians' and to the materialism and determinism of mechanical philosophers.

### About

A recent Korean study, using the EQ-5D instrument examined QOL scores based on whether participants were visually impaired and whether they had 1 of 14 chronic conditions.

### About

Vision impairment and multiple chronic conditions: Findings from the 2002, 2008 National Health Interview Survey. Annals of Epidemiology 22 4 :295—301. Radical in his empiricism and immaterialism, his theory of vision responded to the two major themes that dominated the Scientific Revolution.
