## JaneTranslates

Wars and battles were fought differently, but the process of how individuals responded to the stress was almost certainly the same as it is today, even if our physical stresses themselves have changed: we may not face a lion or dire wolf but our physiochemical and emotional response to an immediate threat or danger involves the same chemical triggers and other physiological change like endorphin neurotransmitters. EFT Techniques and Tasks The primary techniques within EFT treatment can be summarized as: empathic understanding, empathic exploration, process guiding, experiential presence, and content directive non-experiential responses.
