PLoS ONE 6 9 : e24121. Call it social networking between species. Behavior of Bottlenose Tursiops truncatus and Spotted Dolphins Stenella frontalis Relative to Human Interaction.

## The Cove: Filming and Thinking though the Dolphin

Her work has also been published in Smithsonian Magazine, High Country News, The Ecologist, Ocean Realm, The Christian Science Monitor, the Seattle Times, the Seattle Post-Intelligencer and Bainbridge Island Magazine. She has also led extended whale watching journeys to New Zealand, British Columbia and the Azores Islands off Portugal. This interesting but uneven collection, edited by behavioral biologist Frohoff and

nature writer Peterson *Living by Water* , brings together essays by writers, scientists, poets and even musicians, all of whom claim some ambassadorship to the cetacean world.

At every turn, scientists encounter millennial-old, romanticized notions about iconic dolphins teaming with logistical challenges and plodding methodologies struggling to keep pace with, and identify, even a singular, solid thread running through an intricate web of data. Our inner and outer worlds are connected.
