In particular, the evidence shows that asset structure, business orientation, and the level of involvement in property development are significant determinants of the corporate debt policy of property companies.

The Determinants Of Capital Structure: Some UK Evidence

Some UK Evidence from Abstract: This study aims to determine the influence of various firm level characteristics such as, profitability, size, growth opportunities, asset tangibility, non-debt tax shield, volatility and liquidity on capital structure. Other determinants did not show a significant influence on the capital structure decision.

How do Firm Characteristics Affect Capital Structure? Some UK Evidence.
