Institute on Lake Superior Geology , 45th annual meeting, Marquette, MI, May 4

It is hard to believe that a whole year has passed! The expansion of meetings to cover ALL aspects of Lake Superior geology was supported by 81 % of respondents. Geological Survey has initiated a study of copper mineralization on Isle Royale National Park The purpose of the Isle Royale work is to gain a better understanding of the distribution of native copper mineralization and associated secondary minerals. Of the 550 who received the Newsletter, 92 responded to the questionnaire; thanks for your time and effort.
