Potentially Invasive Plant Species In Bidwell Park

Photo by Woody Elliott Catie Bishop at the check-listing trip to Lumpkin Ridge. The new national monument will be under the administration of the Bureau of Land Management, an element of the Department of the Interior. North of the Upper Park Road is O.

Yahi Trail Construction

The volunteer group was established in March 2003 to create a venue for citizens to participate in the care and maintenance of their urban park.

Bidwell Park Master Management Plan

Past the Chico Rod and Gun Club and the Bidwell Municipal Golf Course sits Upper Park Road—a bumpy, winding dirt road about five miles from gate to end that offers magnificent views of Upper Bidwell along the way. Nude hiking and swimming and sunbathing are common anywhere in Upper Bidwell Park. Those include Privet trees, yellow starthistle, pokeweed and blackberries, among others.

Vascular plants of Upper Bidwell Park, Chico, California (1986 edition)

Park on the east furthest side of Horseshoe Lake if you plan to walk east into the Chico Creek Canyon or would like to use a picnic table near the lake. The general location of the work site will likely be near the south-central boundary or near Butte Lake in the northeast corner of the park.

Water rushes through a labyrinth of basalt boulders into the largest, calmest, deep, rounded pool that measures about 50 feet in diameter.

California Watchable Wildlife

Ecological amplitude and distribution are generally limited, but these species may be locally persistent and problematic. Leather grape fern *Botrychium* and many other plants of interest.
