Software

Fook I feel your pain, AC. It's designed to be converted back and forth to MARC.

STM32CubeMX

There is plenty of talk about new client server interfaces, but nothing has come to fruition as of yet.

Snapcraft

There's a bunch of research into what people really want that's required. Graduate School of Library and Information Science. Then abstract away as much as possible of the catalog data into free references sources shared and maintained by the library community think: you could run your own amazon.

Living in the library world: Introduction to libraries: Types of library catalogues

Millions of users can browse and install snaps graphically in the Snap Store or from the command-line. Complicated search strategy options can lead to too many or too few results. Files for catalogue, version 2.

STM32CubeMX

Although that's obviously the case.
