Introduction to Indian Music

Back then, internet had already started but very few people had it.

Sargam

This classification among music symbols is required due to difference in encoding single and group entities, where group entity symbols can be encoded together only and not individually. Similar to the virtual keypad present in a calculator application program, we have designed an internal keypad which displays a visual keypad on the computer screen with buttons corresponding to the symbols used in the Sargam notation. Since Unicode is currently supported by most text editors and web browsers, the iSargam file can be read directly and displayed without the need for any additional code similar to the ASCII-based text files.

Sargam

A Carnatic music composition notated using Sargam notation is given in Fig.

iSargam: music notation representation for Indian Carnatic music

CLASSICAL AND FOLK MUSIC Classical music is bound by certain laws and restrictions having a definite standard and scale with 22 intervals.

Welcome to Sargamschool

In Carnatic music, the intended meaning of music phrase is that the given set of notes has to be sung or played within one breath time in the case of vocal or in a single bow in the case of violin. After four years of his guidance, he gained further training from Mr.
