## NCDE - The intersecting worlds of education and community development policy

Principles Relating to the Regulator	
Principle 1:	The responsibilities of the regulator should be clear and objectively stated.
Description:	The regulator's responsibilities and powers derive from the EU-MS Law. Article 8 refers to the powers of the CNV, which alone is the government agency authorised to regulate and administer execution laws and related statutory agreements. Agreements are the formal regulations of the CNV.  This XV of DLMV sets out the administrative procedures for adoption of agreements which establish that in the event that the CNV adapts, amends, or makes an agreement, or makes a recommendation to the Executive Branch to adapt, amend, or repeal a Law Decree, it must publish a notice for public consultation in two newspapers of national circulation not less than fifteen days before the date on which it is proposed to adopt the said agreement.  The CNV can issue interpretation letters to applicants. Opinion 15/2000 sets out the form and content in the presentation of applications to the CNV, by individuals seeking a specific disposition of the DLMV or the Regulations. The interpretation process appears transparent and free of abuse.  There are agreements of cooperation and transmission of information among the different authorities through adequate channels. Article 22 of the DLMV, refers to the intergovernmental relations and indicates that the commission has the ability to enter into agreements with public or private companies, national or foreign, for the development of its functions. In its relations with the executive branch, the commission acts through the Minister of Economy and Finance (MEF).  The CNV has signed a Memorandum of Understanding with the Attorney's office of the Administration in which they establish relations of cooperation and exchange of information between the two institutions.  Likewise, a Memorandum of Inter-institutional Understanding in Supervision Affairs was signed by the Panama SAs, the CNV, and the Panama Insurance and Reinsurance Superintendence. Its objective was the commitment of the parties to collaborate in its matters pertaining to supervision, including the duty to exchange and to be provided respectively with the necessary information to facilitate supervision. The work of supervision will be shared mutually by the parties in confidence, despite the applicable legal constraints, including those that restrict disclosure.  Finally, the CNV has held discussions with the Financial Analysis Unit (UAF) in order to sign in the future an agreement of cooperation between the two institutions.  Finally, the CNV has also approached the MEF regarding a "cooperation agreement" under which the Ministry will collaborate with the commission in order to collect the first report of the CNV.  The CNV, either on its own initiative or at the request of the Financial Analysis Unit,
