### Reasons for Studying Development Economics

The analyses also differ in terms of the sample of countries and time period.

### Framework for Creating a Smart Growth Economic Development Strategy

There is no universally accepted definition of what a developing country is; neither is there one of what the process of economic development.

### Financial sector development and economic growth: evidence from Cameroon

Hence, a strong positive impact of market capitalization of listed companies on the growth rate of GDP has been evidenced for those countries and years where the level of capital market development was not excessively high. It instead takes the same estimation scheme as in Dickey Fuller DF test, but corrects the statistic to conduct for autocorrelations and heteroscedasticity.

### The impact of the financial system on economic growth in the context of the global crisis: empirical evidence for the EU and OECD countries

Commercial entities encouraged by the market create additional demand for more and more advanced financial services and financial institutions, which want to meet this increased demand, have to further develop. Thus the economic rules operating at global level are also becoming responsible for increasing the gulf between have and have-nots. The theoretical structural model suggests that the impact of this variable on GDP growth should be negative.

### Economic Growth & Environmental Problems

Following works by Al-Yousif, four key areas of researched subject can be named. Physical capital per worker grows over time. Stage 5 - High Mass Consumption Implications of Rostow's model Development requires substantial investment in capital equipment; to foster growth in developing nations the right conditions for such investment would have to be created i.
