## Smart Buildings

Die so gewonnenen Daten dienen dann zur Optimierung von Energieeffizienz, Wärmekomfort und Tageslichtsteuerung.

## Creating Intelligent Cubes

Using smart technology, occupancy, movement, lighting, humidity and temperature can all be continuously measured, allowing building systems to maximise effectiveness of energy use, thermal comfort and daylight balance. Unfortunately, these technologies are still scarcely used on construction sites.

## Trade Shows for Plumbing

These include intelligent, multi-stage burglar protection, automated glare and shading options, and the latest generation of networked, intelligent household appliances. NEST consists of a central building core, to which various building modules — so-called units — can dock. With Power Virtual Agents, they are empowered to make chatbots quickly to address standard business processes and frequently asked questions within Microsoft Teams.

## Trade Shows for Plumbing

Upon saying a specific command, the blinds open as if by magic and the kettle prepares water for tea. Let us explore how you can use Power Virtual Agents to create sophisticated, AI-power chatbots for your business, solving common issues and answering questions around the clock.

## Build Intelligent Chatbots with Microsoft Power Virtual Agents

Der Architekt Matthias Kohler von der ETH, der mit einem interdisziplinären Team aus Forschenden und Industriepartnern an diesem Projekt gearbeitet hat, ist überzeugt, dass Roboter bald Einzug auf den Baustellen halten.
