## Cohort profile of the South London and Maudsley NHS Foundation Trust Biomedical Research Centre (SLaM BRC) Case current status and recent enhancement of an Electronic Mental Health Record

It is the main cause of fungoid infections of plants. Clinical and immunologic responses to the capsular polysaccharide of *Haemophilus influenzae* type b alone or conjugated to tetanus toxoid in 18-to 23-month-old children.

## UNIVERSAL IMMUNIZATION Medical Miracle or Masterful Mirage By Dr. Raymond Obomsawin

Morbidity and Mortality Weekly Report 1982;31:22-26, 31-34.

### Bibliography

He correctly perceived that the bankruptcy of the soil means the impoverishment of the people; both in quality and quantity of food provided.

## UNIVERSAL IMMUNIZATION Medical Miracle or Masterful Mirage By Dr. Raymond Obomsawin

He went on to describe various local plant medicines which had proven to be non-toxic and highly efficacious in the remediation of a wide range of conditions such as: burns; herpes simplex; snake and scorpion bites, kidney stones, ulcers, and high blood pressure.

## Monitoring for adverse drug reactions : proceedings of the Centre for Medicines Research Workshop held at the Ciba Foundation, London, October 4, 1983

Overall, the balance of evidence suggests that Vitamin A deficiency does lead to an increased risk of infections such as measles, respiratory

infections and diarrhoea, and hence to an increased risk of death.

**Monitoring for adverse drug reactions : proceedings of the Centre for Medicines Research Workshop held at the Ciba Foundation, London, October 4, 1983**

The risks attendant in use of vaccines and sera are not as well recognized as they should be. Ahronheim GA, Allard M, Forsey T, Rydbeck R, Teuwen DE, Yamada A.
