Why women leave medicine

Women, especially young women, are underestimated and overlooked in the larger scientific and regulatory community.

WVVA recognizes women in the medical field on 'National Women Physicians Day'

It is not simply aiming for the top whatever that means.

Women Physicians and Promotion in Academic Medicine

The WPC Annual Conference has been key to building relationships among women that encourage and support one another. Murrow contends that the church caters to women, children and the elderly by creating a safe, predictable environment. WPC strives to encourage and support the CMDA membership through these increased challenges.

The Women Physicians Wellness Conference

.

Women in Medicine

And who carries our memories? His advice is grounded in the daily realities we all experience, but his wisdom has been honed by the big-picture perspective of an exhaustive study of the stresses of modern life.

Women Physicians and Promotion in Academic Medicine

We've tried to wrap everything into the registration fee to make it easy on you. Conclusions: Over a 35-year period, women physicians in academic medical centers were less likely than men to be promoted to the rank of associate or full professor or to be appointed to department

chair, and there was no apparent narrowing in the gap over time.
