Raymond Boudon & Mohamed Cherkaoui (eds.), Central Currents in Social Theory: The Roots of Sociological Theory 1700

It uses expressions of vivid first-person experiences to bring about cross-perspectival insights in actors who could not otherwise see the limits of their cognitive and communicative activities.

Central Currents in Social Theory

In addressing these asymmetrical power relationships, social workers can strive to reduce tensions between different groups. Hate crimes may refer to race, ancestry, religion, sexual orientation and physical disabilities.

SAGE Books

The internal complexity of democratic discourse does not overcome the problem of the application of the democratic principle to contemporary social circumstances.

Social Theory

Usually supported in research institutions as a core component of the discipline of sociology, social theory most commonly encompasses the range of explanatory concepts, analytical tools, and heuristic devices on which sociologists and social scientists draw in their efforts to interpret statistical or qualitative data about particular empirical social phenomena. Critical Theory would then have to change its conception of what makes it practical and democratic.

Sociological theory

The Public and Its Problems.

Critical Theory (Stanford Encyclopedia of Philosophy)

The same point could be made about taking existing democratic institutions as the proper model for democratization.

However, Habermas introduces a more fundamental social fact for the possibility and feasibility of democracy: the structural fact of social complexity. As a result, social learning theory posits that learning occurs through observation and imitation. Second, in doing so the interpreter takes up particular normative attitudes.

Central Currents in Social Theory

In facing the challenges of new social facts, Critical Theory remains a vital philosophical tradition in normative disciplines of social and political philosophy. However, theorists believe that capitalism turned most other people into industrial workers, or, in Marx's terms, : individuals who, because of the structure of capitalist economies, must sell their labor for wages.
