## Discourse on Metaphysics and Other Essays

Is the soul a material substance or immaterial? These are supplemented with two essays of special interest to the student of modern philosophy, On the Ultimate Origination of Things of 1697 and the Preface to his New Essays of 1703-1705. Don't think I'd recommend reading Leibniz, get someone else to simply explain him instead. Contained plenty of intriguing ideas but just as much boring filler. His monadology paved the way for atomism and string theory etc.
