If we look at the two countries that are doing the most to push these kinds of regimes abroad, which in my view are the Russian Federation actively and the United States of America by its absence and by the occasional tyrannical cheerleading of its president, these are the two countries which, according to Credit Suisse are—have the highest levels of wealth inequality in the world. But I also think we need to recognize, sovereignty will not get better. He explains how orthodoxy arises within a group from the need to maintain distance from a society it views as hopelessly

corrupt, and how individuals committed to egalitarian causes are particularly susceptible to illiberalism--even poets like Walt Whitman, who celebrated the common people but often expressed contempt for their mundane lives.
