

Earths story

Creative Educational Society - Earth Story : The Forces That Have Shaped Our Planet:
Lamb, Simon, Sington, David: 9781439217818: me.stfw.info.cdn.cloudflare.net: Books

Description: Photographs and text present the various ways in which constant erosion and rebuilding are continually changing the earth and creatures which inhabited the earth at one time and then disappeared. A brief section presents the raw materials such as petroleum, coal; or uranium which man takes from the earth.
