This edition was published in 2005

- During Restoration Drama, Shakespeare was modernised to eliminate what was perceived as archaic or unsophisticated, and plots were recast to serve royalist perspectives.
- It was not until the early eighteenth century that notions of textual fidelity would have any purchase on the appropriation of Shakespeare, popular or otherwise—suggesting the language became more and more sacred with time.
- The 'educated minority' appreciate Shakespeare aesthetically as 'poetry', whereas for the 'groundlings', Shakespeare is all story, character and spectacle.
