13 Inspiring Women To Celebrate This Black History Month

She's held high-profile roles at the University of Chicago Medical Center and launched a number of efforts. She eventually created a brand people recognized, widely manufactured her products, and hired 40,000 ambassadors since the company's inception to help her sell her products, according to.

12 Black American Pioneers Who Changed Healthcare

She spent many nights at home alone in Queens, New York while her husband was away, and felt unsafe with high rates of crime in her neighborhood. The next amendment, which was created to stop black suffrage, was the 15th amendment. Mary Jane Patterson died at her Washington, D.

Katherine Johnson and 9 Other Black Female Pioneers in Science

He also created 75 products with pecans. We Are Your Sisters: Black Women in the Nineteenth Century. A powerful and moving writer, Angelou's work changed the landscape for both female authors and authors of color, and has even influenced modern hip-hop.

Five African American Women Who Changed America

In 1966, Brown invented a system that used a camera that could slide into and look through four peepholes in her front door.

Black History Month: 6 African

In her later career she used this as motivation to mentor young people at the National Technical Association and Science Mathematics Aerospace Research and Technology, Inc. Army, she attended medical school on the GI Bill, where she met her husband Oliver Elders.

Black History Month: 6 African

Daisy Bates In her home state of Arkansas, Daisy Bates 1914-1999 made such an impact that there's even an official state holiday in her honor, ,

and once you know more about her, you'll understand why. But what puts Eckford on this list is her steely resolve in.

A Black Woman's Contributions To The COVID

This all started from a fascination with astronomy at an early age, which led to her being the first Black woman selected for the astronaut training program in 1987. On the tumultuous day, racist white crowds accosted Eckford and the rest of the teens, making their first day of school one of the worst educational experiences any child could ever have.
