Report Card Comments for Math

What Teachers Need to Know First, teachers need to understand subject matter deeply and flexibly so that they can help students create useful cognitive maps, relate ideas to one another, and address misconceptions.

BUSINESS STUDIES TOPIC BY TOPIC QUESTIONS AND ANSWERS

Students get to climb over desks, hunt for clues on the floor and under desks, and piece together puzzles, to simulate being an archaeologist. She recognizes when a student is having a bad day or needs some encouragement and addresses the problem to help the student refocus on the material.

Teaching and Learning with Mobile Technology: A Qualitative Explorative Study about the Introduction of Tablet Devices in Secondary Education

Managing learning in virtual settings: The role of context.

Why our smartest students are failing math

In other words, the data indicates that the innovative behaviour of these teachers is associated with a need to rethink didactical practices.

TCI

Today's schools face enormous challenges.
