## PolyMet Mine

CN-043 Minnesota Environmental Quality Board, 1978. Talnakhite was identified in the Duluth Complex by Hall and Weiblen 27 and confirmed later by Hardynan 28 using the microprobe.

## Major Mines & Projects

. The transfer of concentrate to the rail cars is done separately so as not to contaminate the individual products. A pulp is formed by adding the copper rougher concentrate to an aqueous solution of sulfur dioxide i.

## US4283017A

NorthMet ore is planned to be processed in two phases. At Mule Canyon, south of Tombstone, Arizona, in 1877, a soldier chasing Apache Indians found copper at Bisbee.

## The Duluth [nickel/copper/PGMs] monster

The mining industry, particularly in Australia and Chile, uses the term sulfide mining. Cubanite medium gray lamellae may be seen alternating with chalcopyrite in the upper central area. Ultimately the DNR Commissioner, currently Tom Landwehr, makes the decision on whether to grant permission to mine.

## FAQ: Everything you need to know about PolyMet

At the same time, the Obama administration withdrew 234,000 acres of Superior National Forest, located in the Rainy River watershed, from eligibility for mineral leases for two years so an intensive environmental study on potential threats posed by mining could be completed. The study revealed that copper-nickel mining in the region could meet environment standards if available technology was used wisely, but that production near existing iron facilities might exceed established environmental guidelines. The site is controlled through a long-term lease held by the PolyMet

Mining Corporation PolyMet.

#### **RI8084**

At the Senate District and Operating Unit conventions that followed, where representatives of precincts ranging from around 22 to 90 precincts per unit gathered to elect officers and vote on resolutions, nearly 50 units passed resolutions opposed to sulfide mining.

#### **RI8084**

Another suitable collector is Reagent Z-200, sold by Dow Chemical Co. Spotted to mottled, olivine up to 1 millimeter and lathy plagioclase up to 3 millimeters.

#### **Copper**

CN-084 Minnesota Environmental Quality Board, 1977.
