Divided into three parts, part one contains three chapters which each introduce different aspects of Tantawi Jawhari himself. A pioneering scholar in terms of familiarising the people of his time with many previously neglected matters regarding Islam and science, his publications shocked the Cairo educational system and other Muslim places of learning in the early twentieth century. The book will be a valuable resource for anyone studying modern Egypt, the Qur'an, Islam and Science, scientific interpretation and inimitability. This book examines the intersection between Tantawi Jawhari and Egyptian history and culture, and demonstrates that his approach to science in the Qur'an was intimately connected to his social concerns.
