## As Myanmar opens, China alliance frays

President Lee's feelings toward Taiwan and its relationship with China surfaced when a Japanese journalist interviewed the president in May 1994. Secondly, in ideology, the CCP has further fortified and deepened the theory of Stalinism through its treatment of a series of important events—the defeat of the Second Revolution, the peasant wars and the Resistance War against Japan, etc. In the early 1900s, the Qing rulers of China realized that reform was essential.

## China

Simply viewed from this aspect, the war would probably have to cease or be slackened.

## Beijing

It is derived from the fundamental Marxist theory that under the modern capitalist system including that in the backward countries, it is the urban class which leads the rural masses, and this is also the conclusion drawn from numerous experiences, especially that of the October Revolution. Many analysts and power holders now realized the Taiwan problem was serious, that the PRC regime meant business, and that the ROC regime should not anger the Beijing leadership. There are no government-approved Chinese schools, unlike in Malaysia or Thailand.

## Ending the Chinese Civil War

We recommend that Congress and the new administration agree not to supply Taiwan with further weapons at this time. Under the ending that war, Western powers for the first time secured the right to establish within the city.
