Although the research was based on a partial recording of interviews with only the aged workers, and thus provided a static snapshot of the work organization in the emic vocabulary of those who were interviewed, it nevertheless documented the extent to which workers had independently formed a community of their own that could influence the way work was organized. Some intellectual traditions emphasized aspects allegedly peculiar to Japan, and highlighted the emic vocabulary for describing work in Japan: dekasegigata rodo migrant labor , kigyobetsu kumiai the enterprise union , nenkogata romu seido seniority-based personnel practices. In setting the agenda for a discussion of work in Japan, this chapter asks: how hard do the Japanese really work? Decisions there are often made beyond the boundaries of most states.
