## IT Project Management: A Geek's Guide to Leadership

Legal frameworks for the protection of immovable cultural heritage in Africa ICCROM Conservation Studies 5 : 18-21. This practice, which commodifies both material remains and intellectual valuation of social worth, along with the gross accumulated output of this consumptive paradigm, has radically transformed and made much more multi-sided the question of ethics in archaeology. Cultural heritage management CHM has changed a great deal since it first became a recognized field of practice.

Working with the Keepers of the Land: Creating Partnerships for Preservation and Management, 13. This entry looks at areas where significant change has taken place and some of the costs and benefits associated with those changes. While there still is a strong intellectual commerce in scholarly pursuits of knowing the past, far exceeding that form of archaeology are the various iterations of commercial management arising from the conservation of archaeology within development lands.

## Zimbabwe: Cultural Heritage Management

This chapter considers how archaeological ethics have become transformed as a result of this very dominant form of archaeological practice in North America, and how it has made those ethical questions of much greater social import that in turn is transforming the very notion of what archaeology is and can be in North American society. Partners such as the Nature Conservancy, Ducks Unlimited, National Wild Turkey Federation, Whitetails Unlimited, the Shawnee Trails Conservancy, Southern Illinois University, University of Illinois Extension, the Archaeological Conservancy, and the Sierra Club are just a few of the many organizations that have enhanced the management of the Shawnee National Forest through the sweat of their membership and students, as well as their financial contribution toward land acquisition and project development.
