Prince of the Renaissance : the life of François I : Seward, Desmond, 1935

Machiavelli theorizes that the state is only created if the people cooperate and work to maintain it.

Niccolo Machiavelli

Their houses were really small with a maximum of four rooms. The state should be one's primary focus, and maintaining the sovereignty of the state one's most vital concern.

France in the 16th Century

He attended lectures by Marcello Virgilio Adriani, who chaired the Studio Fiorentino. Machiavelli notes that it is easier to regulate a familial province than a new principdom for two chief grounds. The Poems of Francois Villon: Edited and turned into English prose.

Prince of the Renaissance (1974 edition)

He financed the building of a new City Hall for Paris in order to have control over the building's design.

Francis I: Prince of the Renaissance 1st Edition in Dust

Barred from public office in Florence as an insolvent debtor, Bernardo lived frugally, administering his small landed near the city and supplementing his meagre income from it with earnings from the restricted and almost exercise of his profession. The historian set the negative image.
