## What To Do When You're In A Relationship With No Chemistry

An article well written and astute. Or the lack of it. As I've said, very often a husband and wife can be married for many years without ever telling each other what they find most exciting in bed.

## How Important Is Intimacy in a Relationship

Monotony not to be confused with monogamy is the enemy of passion.

## Can Chemistry Be One

To the psych community: it's not nearly as complicated as you try to make it! The first few dates are about getting to know someone as a person and figure out if there's a connection.

## How to Make Lust Last

One way we've tried to provide that clarity with MeetMindful is by giving users the option to clearly express what kind of relationship they're looking for — with options including friendship, dating or long-term relationship. I believe it's impossible to reinvigorate the marriage while still stoking the fantasies of the other.
