The Society will supplement contributions as needed to ensure that one fellowship is awarded for the 2022-2023 academic year. Skinner, who had first designed machines to teach laboratory animals, designed this instrument to teach children elementary arithmetic. He was vice-president of the Society from 1898 to 1901, an editor of the Transactions of the American Mathematical Society from 1899 to 1905, and President of the Society from 1903 to 1904.

## Mathematics Into the Twenty

Indeed had written to Fiske on 23 February 1896 making the following suggestions:- Our summer meeting last year was profitable in various ways; but specifically, perhaps, as a stimulus to mathematical thought. At first, of course, little changed as the Society was firmly based in New York and it held its first meeting as the American Mathematical Society in Brooklyn in 1894.
