## Heirloom Embroidery: Inspired Designer Projects with Beautiful Stitchi

Hand embroidery can become very addictive, but as it is very transportable, the work can be done practically anywhere. I wish health and happiness for everyone in the new year. Review the Class Preview video, and the various written descriptions of the Class and each Lesson before you purchase, so you have a good understanding of the Class content.

Are there any system requirements to view the Class video content? Maybe you'll want to make one each way! The pattern includes sizes Newborn up to 9-12 Months and a simple smocking plate for new smockers. You will make the batiste overlay blocks in class, and finish the simple piecing at home, with the included instructions. I had two beginner smockers testing for me this time and I want to show off their creations first.

This project requires a zigzag sewing machine with some decorative stitches. I wish I could just work out the details in my head and write them down step by step.

A Ruffled version of the Diaper Cover will also be coming in sizes Newborn to 18 or 24 Months. Decorative machine stitching accents the quilt. And not a PDF, but the real book! A refund on a Craftsby Premium Membership will be applied on a pro-rata basis, within the then-existing term of your Craftsby Premium Membership.
