Salmon Academy

Egg Although thousands are laid, up to 85% of the eggs can be lost before hatching. Intensive salmon farming uses open-net cages, which have low production costs. .

The Salmon Life Cycle

Hence in order of, coho are most infected followed by sockeye, chinook, chum and pink. This should be better for the local environment of the fish farm, but producing soy beans has a high environmental cost for the producing region.

Life Cycle of Salmon

Alaska Department of Fish and Game.

Life Cycle of Salmon

Salmon eggs are reddish orange in color. In most Alaskan rivers, the King salmon arrive first, then the Sockeye, Pinks, Chums and Silver in that order. PDF from the original on 6 May 2003.
