Niger

Regional aggregates are based on time-varying weights. These attacks occurred in 31 different countries in 2015, including most frequently: Nigeria 146 , Iraq 116 , Afghanistan 112 , and Syria 66. City states south of this — such as , , and — were allied in a system of.

Niger : Statistical Annex

Finally, if low level attacks against noncombatant targets begin to suggest the existence of a chronic problem, the attacks may be considered terrorism. Moreover, specific details about victims, damage, perpetrators, and other incident elements are frequently not fully reported in open source information. The geographic regions are shown on the map above.

Niger

These include Somalia ranked 13 th in terms of total attacks , Yemen 15 th , Cameroon 23 rd , and Niger 34 th.

Niger

Current account balances as a percentage of GDP 63.

Niger

Both areas were culturally in the center and west, and in the east.
