

Fatigue and fracture of aerospace structural materials - presented at the 1993 ASME Winter Annual Meeting, New Orleans, Louisiana, November 28- December 3, 1993

American Society of Mechanical Engineers - Fatigue Standards and Fracture Standards

Description: -

-
Fracture mechanics -- Congresses.
Airframes -- Materials -- Fatigue -- Congresses. Fatigue and fracture
of aerospace structural materials - presented at the 1993 ASME
Winter Annual Meeting, New Orleans, Louisiana, November 28-
December 3, 1993

-
v. 36.
AD (Series) ;
vol. 36
AD ; Fatigue and fracture of aerospace structural materials -
presented at the 1993 ASME Winter Annual Meeting, New Orleans,
Louisiana, November 28-December 3, 1993
Notes: Includes bibliographical references and index.
This edition was published in 1993

Analysis of Constraint Configurations in Mechanical Assembly via Screw Theory

Murphy, An Experimental Parametric Study of Geometric, Reynolds Number, and Ratio of Specific Heats Effects in Three-Dimensional Sidewall Compression Scramjet Inlets at Mach 6, AIAA 31st Aerospace Sciences Meeting, Reno, NV, AIAA Paper 93-0740, 1993. Section 7: Virtual, Mixed and Augmented Environments.

Conferences : Bhavani Sankar's Webpage

NASA Conference Publication 3104 Part 2, pp. Barger, Diffracted and Head Waves Associated With Waves on Nonseparable Surfaces, NASA TP-3169, April 1992, pp. This volume covers broad topics related to mobile machines in general, and climbing and walking robots in particular.

J. N. REDDY

Luckring, Experimental Surface Pressure Data Obtained on 65-Degree Delta Wing Across Reynolds Number and Mach Number Ranges, Volume 2-Small-Radius Leading Edge, NASA TM-4645, Vol. A series of options or instructions that does not recommend a specific course of action.

A TESTING AND STANDARDS

Please see of the Frequently Asked Questions FAQ for information on how to obtain a hardcopy of this document. Part III: Optical gain in silicon nanocrystals. Wang Application of soil-water characteristic curve taking stress influence into considerations in unsaturated seepage analysis, Sh.

Analysis of Constraint Configurations in Mechanical Assembly via Screw Theory

Wilson, Target Correlation Effects on Neutron-Nucleus Total, Absorption, and Abrasion Cross Sections, NASA TM-4314, December 1991, pp. Bohon, Flutter of Flat Rectangular Orthotropic Panels With Biaxial Loading and Arbitrary Flow Direction, NASA TN D-1949, September 1963. Adams, Automatic Computation of Wing-Fuselage Intersection Lines and Fillet Inserts With Fixed-Area Constraint, NASA TM-4406, March 1993, pp.

Langley Technical Report Server

This material was prepared under the auspices of the US National Nanotechnology Initiative NNI. An experience-- Input dependent misclassification costs for cost-sensitive classifiers-- Undirect knowledge discovery by using singular value decomposition-- A clustering algorithm using the tabu search approach with simulated annealing-- Cluster generation using tabu search based maximum descent algorithm-- Stabilization of regression trees-- Influence of lossy compression on hyperspectral image classification accuracy.
