## Publisher

The first services were held at the Mint Lane chapel in 1813. They are also necessary if other nations, once they have settled down, are not to become jealous of our natural wealth. Tree-planting has been a minor incident in the story and the rest of the country has not heard much about it.

## Publisher

Agriculture Canada Northern Research Group Bulletin NRG 90-09b.

## Biography

At Harvard he began research into the field of acoustics, and was able to unite his interests in music and science by studying the mechanical properties of musical instruments, particularly the violin family.

## Marquis Wheat

The fact that for me it takes 5 years to bloom as a full double, and even then does not always do so, is no deterrent. This, naturally, gave the economy great capacity for adjustment to fluctuations. They are long since gone, and so is even the house, - nothing but a hayfield there now.

## Marquis Wheat: A History of Wheat Developed to Grow in Canada

NA, MG 29, B19; MG 30, B13, 3, book 24, 31 Oct. For thirteen years he worked with William to run the family business. I am sure that Festiva Maxima is one of the commonest peonies grown, and with good reason.

## Saunders, William 1836

When mixed with yeast in baking, high-gluten wheat traps more carbon dioxide, which gives the loaf more volume.
