Libraries add bibliographic records to WorldCat representing books and other items in their collections. The database is searchable by many of the standard numbers associated with books, magazines, journals, and music and video recordings. The classification numbers applied to books and other materials are used to arrange items on shelves and to support browsing, filtering and retrieval of bibliographic information in online systems.

OCLC Classify

Your local library may be able to help you gain access to a resource found through Classify and WorldCat.

OCLC Classify

Each ISBN is a 10 or 13 digit number. FAST headings provide additional subject information about a work and enable you to search the Classify database by subject. ISSN An ISSN is a standardized international code which allows the identification of a serial publication.

OCLC Classify

Enter all digits found on the item e. Classification schemes are used to provide a systematic arrangement of materials.
